Operate Breathing Apparatus

MSAPMOHS216A

Breathing Apparatus Training
Unit of Competency from PMA08 Chemical, Hydrocarbons and
Oil Refining Training Package

This unit covers competence associated with operation and maintenance of breathing apparatus in irrespirable atmosphere.

The course covers:

Conduct pre-donning checks and tests on breathing apparatus

- Breathing apparatus is inspected for immediate use in accordance with the organisation's procedures
- Faulty or damaged equipment is reported and recorded in accordance with the organisation's procedures

Operate breathing apparatus

- Hazards are identified, monitored and controlled in accordance with the organisation's procedures
- Communication is established and maintained with members and other appropriate personnel throughout the activity
- Activities are undertaken as a member of a team, demonstrating effective application of breathing apparatus in accordance with the organisation's procedures
- Entrapment procedures are implemented in accordance with the organisation's procedures
- Personal safety is maintained at all times

Conclude operations

- Breathing apparatus set is closed down in accordance with organisational procedures
- Breathing apparatus set is removed in accordance with the organisation's procedures
- After use cleaning and maintenance of breathing apparatus is undertaken in accordance with the organisation's procedures
- Equipment is made ready for operational use in accordance with organisational procedures.

Included content:

- Types and application of Breathing Apparatus
- How it works
- Operator duration and consumption rates
- Donning procedures
- Practical use of equipment
- Cleaning and maintenance

Practical training in the use of Self Contained Breathing Apparatus and/or Airline Breathing Equipment is a core activity of our training course.

It is preferred that the Breathing Apparatus used for practical training is the actual equipment used on the job by the trainees however, equipment is provided by us for the practical training to supplement or when customer equipment is not available.

Course Assessments Duration: 0.5 Hour

Other Information

Duration: 4Hrs – Annual retraining
8 Hrs – First time trainees

Location: Our venue Salisbury Qld

Cost: Contact us for onsite training

Per Trainee: \$125p.p. No GST - 4Hrs
\$265p.p. No GST - 8Hrs

Vocational Outcome

Compliance with Legislative requirements to work safely using breathing apparatus on a worksite.
